

The Financial Booster

Taking the heavy lifting out of establishing your financial plan

Tailored financial model of your business

Plot an accurate trajectory for your company with a comprehensive financial model of your business. We will tailor a set of integrated, dynamic spreadsheets to your business which will make it easy to examine multiple scenarios for the future.

The model will be instrumental in:

- Seeking funding*
- Cash management*
- Controlling spending*
- New product introductions*
- Establishing and maintaining hiring plans*

Financial statements include:

- Cash Flow Statement*
- Balance Sheet*
- Income Statement*
- Departmental Expense Statements*

...all with key financial ratios.

Just when we needed someone with serious financial skills, Jill came in and took us to the next level. Her help was instrumental in establishing and maintaining the level of financial sophistication expected by our VC.
